STUDENT ACCESS TO EDLINE

In addition to offering accounts for parents to access student information in Edline, Hancock County Schools is offering students the opportunity to have their own individual account. This access for the most part is very similar to that offered to parents. However, the opportunity does exist for teachers or administrators to post information that parents can see that will not be available for students. No information will be available for students that parents cannot see.

Most major colleges and universities now allow similar access to student progress (WVU's MIX system for example) and it is our recommendation that in order to prepare students to be ready for this process that they participate in Edline. The process will be introduced by teachers in the school. All usage will conform to the Hancock County Schools Acceptable Use Plan and West Virginia Board of Education policy 2460 (both available on the Hancock County Schools website www.hancockschools.org).

To authorize your child to receive an activation code for student access to Edline, please sign and date the form below and return to the school. If you have any questions on this procedure, feel free to call the county technology department at 564-3411 x387 or send email to Edline_support@hancockschools.org

Thank you.

Jennifer DiGiacinto, Technology Coordinator

I certify that I am the legal guardian of the student named below and grant permission for this student to receive an activation code for student access to EDLINE.

Student Name *(please print)*: _____

Guardian Name *(please print)*: _____

Guardian Signature: _____

Date: _____
